

Applying for a Clean Water Fund Loan

The first step towards obtaining an SRF or SWQIF loan is the submittal of a complete project plan to the DEQ Revolving Loan and Operator Certification Section, by July 1st, for funding in the subsequent fiscal year. A municipality interested in an SRF or SWQIF loan funding should first contact our staff for specific guidance before project planning begins. Please note that you will need to follow the instructions provided in the SRF/SWQIF Project Plan Preparation Guidance to complete a project plan. Project plans submitted by July 1st must be accompanied by a complete Project Plan Submittal Form. Both this form and the 'Plan Preparation Guidance' can be found on our **Forms and Guidance** page.
