

SAFE DELIVERY FACT SHEET

Enacted on January 1, 2001 and amended in December of 2006, Safe Delivery allows for the anonymous surrender of an infant (within 72 hours of birth) to an Emergency Service Provider (ESP) without the expressed intent to return for the newborns. ESP's are defined as a uniformed or otherwise identified employee or contractor of a fire department, hospital, or police station when that individual is inside the premises and on duty. ESP also includes a paramedic or an emergency medical technician when either of those individuals is responding to a 9-1-1 emergency call.

The intent of the law was to allow for an anonymous safe surrender of the newborn without fear of prosecution and to make the child available for adoption. Private adoption agencies assume responsibility for the child as soon as medical authorities determine that the child has not been neglected or abused and that the infant is not more than 72 hours old.
